ABOUT UMBRELLAS

DOUBLE CANOPY STRUCTURE

The double canopy construction allows the wind to pass through the vents, ensuring incredible resistance to wind gusts. Brilliant!

SIZE 62" = ARC 157 CM

The Arc Size is the measure of the open umbrella starting from one end of the umbrella, going over the top of the canopy to the other end.

58" UMBRELLA XL

SIZE XL - ARC 58" (147 CM)

STORM-SAFE, NON-FOLDABLE

With a 58 inch arc (147 cm), this XL sized umbrella fits easily for two.

1. The Double canopy is engineered to resist even the heaviest windstorms
2. Strong spokes: The spokes are the network of small metal wires that protrude outwards from the stem and support the canopy.
3. On this special model, the stem is non-foldable - 1-fold stem. Yes, it's big to carry, but on the other hand, it's the strongest umbrella in the market!

The construction offers significant increase in both the durability and life of the umbrella!

**THE STRONGEST
UMBRELLA IN
THE MARKET !**
